VMware Actual Free Exam Questions And Answers

NO.17 An administrator deploys a linked clone pool and notices that many virtual machines are in an Error state. This cycle keeps repeating.

What can be done to correct this issue?

- * Use the new snapshot or template to recreate the pool
- * Restart the View Composer service
- * Disable provisioning on the pool
- * Restart the View Connection Server service

NO.18 How does User Environment Manager use the Profile Archive file share?

- * It stores Flex configuration files

- * It stores the FlexEngine executable files for distribution
- * It stores the user personalization settings
- * It stores backups of the user personalization settings

Explanation/Reference: <https://www.vmware.com/pdf/uem-860-admin-guide.pdf>

NO.19 What is the default behavior for AppVolumes drive letter assignments?

- * For writable volumes the drive letter is hidden, and for AppStack volumes the drive letter is not assigned
- * Drive letters are not assigned for both AppStack and writable volumes
- * For writable volumes the driver letter is not assigned, and for AppStack volumes the drive letter is hidden
- * Drive letters are assigned and hidden for both AppStack and writable volumes

NO.21 When preparing a master image for a virtual desktop infrastructure environment, how should disk defragmentation be configured?

- * Run a disk defragmentation and then schedule automatic defragmentation tasks prior to publishing the desktop
- * Do not run a disk defragmentation but schedule automatic defragmentation tasks prior to publishing the desktop
- * Run a disk defragmentation and then disable automatic defragmentation tasks prior to publishing the desktop
- * Do not run a disk defragmentation but disable automatic defragmentation tasks prior to publishing the desktop

NO.22 Within VMware User Environment Manager management console, which are correct Triggers for Triggered Tasks?

- * Lock workstation, Unlock workstation, Disconnect session, and Reconnect session
- * Disconnect workstation, Reconnect workstation, Lock session, and Unlock session
- * Lock workstation, Unlock workstation, Logoff User, and Login User
- * Restart workstation, Shutdown workstation, Disconnect session, and Reconnect session

NO.23 Which two guest virtual machine components provide the best performance in a View virtual desktop? (Choose two.)

- * vmxnet3
- * BusLogic
- * PVSCSI
- * e1000

NO.24 Which two guest virtual machine components provide the best performance in a View virtual desktop? (Choose two.)

- * vmxnet3
- * BusLogic
- * PVSCSI
- * e1000

Explanation/Reference:

NO.25 An administrator is unable to use a desktop as the parent for an instant clone desktop pool.

What is the most likely cause?

- * When installing the Horizon View Agent, the Client Drive Redirection option was selected
- * When installing the Horizon View Agent, the VMware Horizon Instant Clone Agent option was selected
- * When installing the Horizon View Agent, the VMware Horizon View Composer Agent option was selected
- * When installing the Horizon View Agent, the vRealize Operations Desktop Agent option was selected

NO.26 What is the last step that must be completed to prepare a desktop virtual machine for use in a linked clone pool?

- * Install VMTools on the virtual machine
- * Turn on the virtual machine and then take a snapshot
- * Install the Horizon View Agent on the virtual machine
- * Shut down the virtual machine and then take a snapshot

NO.27 When integrating a Citrix deployment in VMware Identity Manager, what can be done in the Administration Console with Citrix resources?

- * Entitle users to those Citrix resources
- * View the Citrix resources and their entitlements
- * Modify the settings of the Citrix resources
- * Manage Citrix-published applications and Citrix-published desktops

NO.28 What are two View requirements for ThinApp Applications (Choose two.)

- * Store Microsoft Installation (MSI) packages on a Windows network share
- * Grant full control permission to the network share
- * Store Microsoft Installation (MSI) packages on a VMFS datastore
- * Grant read permission to the network share

NO.29 Within the VMware User Environment Manager management console, which three actions does the Config File Creation wizard allow a user to take? (Choose three.)

- * Create a custom config file
- * Use a Windows Common Setting
- * Create Predefined Settings
- * Configure an application for DirectFlex
- * Use an Application Template

Explanation

NO.30 How many ESXi hosts may receive vSphere Desktop licenses if three 100-seat View Standard bundles are purchased?

- * An unlimited number of ESXi hosts
- * Up to three dual-socket ESXi hosts
- * None; Horizon Standard does not include vSphere Desktop licenses
- * Up to 150 dual-socket ESXi hosts

NO.31 Which two guest virtual machine components provide the best performance in a View virtual desktop? (Choose two.)

- * vmxnet3

- * BusLogic
- * PVSCSI
- * e1000

Reference:

<https://docs.vmware.com/en/VMware-Horizon-7/7.11/horizon-architecture-planning/GUID-ED0A3837-FB0E-4891-B298-FDE8EBF55140.html?hWord=N4IghgNiBcIAoDUDKBhJBjEBfIA>

NO.32 Which installation type should be selected to generate a View Connection Server instance with a View LDAP configuration that is copied from an existing instance?

- * Enrollment Server installation
- * Security Server installation
- * Replica installation
- * Standard installation

Explanation/Reference: <https://docs.vmware.com/en/VMware-Horizon-7/7.1/com.vmware.horizon-view.installation.doc/GUID-086D023E-7A05-49E3-8077-7D5C055EBB3B.html>

NO.33 Which two guest virtual machine components provide the best performance in a View virtual desktop? (Choose two.)

- * vmxnet3
- * BusLogic
- * PVSCSI
- * e1000

NO.34 How many ESXi hosts may receive vSphere Desktop licenses if three 100-seat View Standard bundles are purchased?

- * An unlimited number of ESXi hosts
- * Up to three dual-socket ESXi hosts
- * None; Horizon Standard does not include vSphere Desktop licenses
- * Up to 150 dual-socket ESXi hosts

Explanation/Reference: <https://www.vmware.com/content/dam/digitalmarketing/vmware/en/pdf/products/horizon/vmware-horizon-7-faq.pdf> page9

NO.35 Writable Volumes can be assigned to which three choices? (Choose three.)

- * VDI Desktops
- * Groups
- * RDS Session Hosts
- * AppStacks
- * Users

NO.36 The VMware Horizon administrator is unable to configure View Storage Accelerator on a vSphere 6 desktop virtual machine.

What could be the reason?

- * You cannot use View Storage Accelerator in a vSphere 5.5 or later environments
- * The virtual machine is on a VSAN datastore
- * Global Policies has been edited and the Multimedia redirection (MMR) value has been set to Allow
- * The virtual machine is larger than 512GB

NO.37 One of the datastores containing a manual desktop pool is running out of disk space and an administrator adds a second datastore.

Which operation should the administrator perform to resolve the issue?

- * Recompose
- * Storage vMotion
- * Refresh
- * Rebalance

Reference:

<https://docs.vmware.com/en/VMware-Horizon-7/7.0/com.vmware.horizon-view.administration.doc/GUID-1258E651-0A9F-4A71-AD59-F3CD57072E41.html>

NO.38 Where does VMware Identity Manager administrator access the Join Domain command?

- * Identity & Access Management > Manage > Identity Providers
- * Identity & Access Management > Manage > Appliance Settings
- * Identity & Access Management > Setup > Connectors
- * Identity & Access Management > Setup > AirWatch

Explanation/Reference: <https://docs.vmware.com/en/VMware-Identity-Manager/2.8/idm-28-administrator.pdf>

NO.39 What is the recommended relationship between View Composer servers and vCenter servers?

- * Many View Composer servers to many vCenter servers
- * One View Composer server to one vCenter server
- * One View Composer server to many vCenter servers
- * Many View Composer servers to one vCenter server

Explanation/Reference: [https://pubs.vmware.com/view-52/index.jsp?topic=%2Fcom.vmware.view.administration.doc%](https://pubs.vmware.com/view-52/index.jsp?topic=%2Fcom.vmware.view.administration.doc%2FGUID-F20397F5-A0A1-4DF1-A4FB-11F15E94331D.html)

[2FGUID-F20397F5-A0A1-4DF1-A4FB-11F15E94331D.html](https://pubs.vmware.com/view-52/index.jsp?topic=%2Fcom.vmware.view.administration.doc%2FGUID-F20397F5-A0A1-4DF1-A4FB-11F15E94331D.html)

NO.40 Review the exhibit.

Resource Pool	Session State	Object Type	Protocol	Session Duration(min)	Logon Duration (sec)	User
Test	Connected	VDI Desktop Sess...	PCoIP	1:01	?	_____
		VDI Desktop Sess...				
		VDI Desktop Sess...				
		VDI Desktop Sess...				

While investigating slow logins, the logon duration is missing as shown in the exhibit.

What two actions will report logon duration? (Choose two.)

- * Restart the Horizon Broker Agent
- * Reboot all Horizon Connection Servers
- * Enable the logon duration option in the Horizon Broker Agent configuration
- * Synchronize time on Horizon Broker Agent, Desktop Agent and Events DB

Explanation/Reference: <https://docs.vmware.com/en/VMware-vRealize-Operations-for-Horizon/6.5/com.vmware.vrealize.horizon.admin/GUID-3312F598-8ADE-4106-BFC5-5E023FBC83B0.html>

NO.41 A Microsoft Windows Server Operating System master image is being developed for use as a single-session host.

Which two steps must the administrator perform before installing VMware Horizon Agent? (Choose two.)

- * Install the Remote Desktop Services Role
- * Verify that the Remote Desktop Services role is not installed
- * Install Service Pack 1 for Windows Server 2008 R2 or Windows Server 2012 R2
- * Install the Microsoft IIS Service
