Latest [May 30, 2022 Huawei H12-111_V2.5 Exam Practice Test To Gain Brilliante Result [Q106-Q123

Latest [May 30, 2022] Huawei H12-111_V2.5 Exam Practice Test To Gain Brilliante Result

Take a Leap Forward in Your Career by Earning Huawei H12-111_V2.5

NO.106 Edge computing supports real-time services and can do ms-level data analysis

* True
* False

NO.107 The device ID prefix of AR501L1Rc model is ()?

* 2A
* 82E
* 2C
* 23

NO.108 Adding tasks to the task stack before the system is running is no different from adding tasks to the task stack after the system is running.

* True
* False

NO.109 At what level is Huawei’s edge computing gateway deployed?
* Between the data storage server and the cloud platform
* Between the network layer and the platform layer
* Between the access layer and the network layer
* Between the application layer and the platform layer

NO.110 If you do not open an account for a loT device on the OceanConnect platform, the device will fail to register with OceanConnect.
* Correct
* Error

NO.111 Among the following communication technologies, the wired communication technology is
* Zigbee
* RF6LoWPAN
* RS485
* 3G/LTE
* PLC
* M-BUS
* ETH

NO.112 What is the system bandwidth of NB-IoT? (Single choice)
* 12KHz
* 15KHz
* 60KHz
* 180KHz

NO.113 The main process of 0ceanConnest is ()? (multiple choice)
* Southbound message reporting process
* Business distribution process
* Northbound registration process
* Southbound registration process

NO.114 Among the following options, which does not belong to the advantage of static memory in HuaweiLiteOS memory management is ()?
* Allocation on demand
* no debris
* High distribution efficiency
* High release efficiency

NO.115 In the field of smart home, smart ONT can also be based on USB Dongle extension, providing a variety of Basic Access CapA, Bilities for the Internet of Things, including Zig-bye/Z-wave. Through the unification of access standards, it will be possible to integrate smart devices from different manufacturers.
* Correct .
* Error

NO.116 The smart home network includes a basic broadband network and an intelligent internet network, and it is connected to the broadband network of the operator.
* True
* False

NO.117 In order to detect the status of the parking space faster, the higher the frequency of the detector, the better.

* True
* False

NO.118 The third-party platform specifies the device ld AES encryption parameters in the OceanConnect platform settings, and the subsequent communication between the OceanConnect platform and the on-board device needs to be encrypted by AES.

* Correct
* Error

NO.119 The bracelet in the care of the elderly requires the ability to push into the WAN to ensure that the elderly can be cared for outdoors.

* True
* False

NO.120 Does the Huawei IoT gateway provide () uplink and downlink interfaces? (multiple choice)

* Zigbee
* RF6LoWPAN
* RS485
* PLC
* eth
* 3G/LTE

NO.121 Among the following options, the correct description for RFMesh is ().

* RF Mesh can relay signals to extend wireless coverage
* RF Mesh physical layer adopts IEEE802.15.4 standard
* RF Mesh transmission layer uses TCP protocol to ensure reliable connection and realize neighbor discovery
* RF Mesh uses Mesh technology on the basis of RF technology

NO.122 Among the following options, the wrong description for EEM is ().

* EEM support plan and strategy management
* EEM can provide GIS map monitoring function
* EEM is a platform developed based on the Huawei AgileController platform
* EEM can manage terminal equipment and provide remote upgrades

NO.123 The meter reading protocols mainly used in Huawei’s power IoT solution include ()? (included)

* DLMS .
* Modbus .
* JSON
* protobuf
