- * Build automation rules add criteria as Contact as blank add action as notify assigned user
- * Build dynamic list add criteria as Contact as `“Renewed”` add action as notify assigned user
- * Build dynamic list add criteria as Contact as blank add action as notify assigned user
- * Build automation rules add criteria as Contact as `“Renewed”` add action as notify assigned user

QUESTION 85

LenoxSoft has had a Product Interest form live on their website for the past 3 months. They would like to make sure that, moving forward, every time the form is submitted, a custom field is updated. They also want to update that custom field for anyone who has submitted the form before today. What combination of automation tools should LenoxSoft use to achieve this?

- * Automation rule and completion action

- * Dynamic list and automation rule
- * Completion action and dynamic list
- * Segmentation rule and completion action

QUESTION 86

What is true about custom redirects? [Choose two answers]

- * When a visitor clicks a custom redirect any completion actions associated with the custom redirect will trigger.
- * Custom redirects will continue to work if they are deleted in Pardot.
- * When a visitor converts to a prospect completion actions on a custom redirect will trigger
- * Custom redirects are great for linking to files or pages you do not host.

QUESTION 87

Can we connect Twilio SMS Center via Pardot Connector?

- * True
- * False

QUESTION 88

LenoxSoft is using a repeating Engagement Studio program to send prospects who complete a specific form a series of emails, increase the prospect score when the emails are engaged with, and notify an assigned user if the call to action in the email is completed. Prospects should only repeat the program when the form is completed again.

How should LenoxSoft add the prospects?

- * By using a static list on the form's completion action that is used as the recipient list on the program, then remove prospects from the static list before every end step in the program.
- * By using an automation rule to add prospects to a static list based on the form being completed, then use that list as the recipient list on the program.
- * By creating a dynamic list based on the form being completed and use that list as the distribution list on the program.
- * By using a static list on the form's completion action, then start the program with a 'Form Completed' trigger so only prospects who completed the form will get the follow up actions.

QUESTION 89
