[Jul 24, 2022] Get Up-To-Date Real Exam Questions for 700-846 with New Materials
Updated 700-846 Certification Exam Sample Questions

Cisco 700-846 Exam Syllabus Topics:

TopicDetailsTopic 1- Explain the concerns and challenges of the oil and gas industry- Explain value proposition and use cases of Edge IntelligenceTopic 2- Explain management tool positioning for use cases to meet customer requirements- Describe the IoT use cases in manufacturingTopic 3- Explain the features of Extended Enterprise solutions- Cisco IoT Strategy and ProductsTopic 4- Describe the key features and benefits of Industrial Asset Vision- Explain product positioning for utility use casesTopic 5- Explain product positioning for roadway and intersection use cases- Describe use cases for Extended EnterpriseTopic 6- Explain the value proposition of Cisco's industrial security portfolio- Explain the concerns and challenges of the mining industryTopic 7- Describe the programs and incentives of Cisco IoT- Understand the Extended Enterprise sales play and opportunityTopic 8- Describe the IoT use cases in roadways and intersections- Describe how CUWRB addresses customer challenges with wireless connectivity in IoT deploymentsTopic 9- Explain product positioning for manufacturing use cases- Describe the capabilities, value proposition, and design considerations for CUWRBTopic 10- Explain the concerns and challenges for roadways and intersections- Explain positioning for Cisco IoT products

QUESTION 30

What are the main features required of an Industry 4.0 network-?

* Safety and Profibus compatibility
* low latency cybersecurity. convergence
* standardization safety PLC compatibility
* safety IEC 61850 compatibility

QUESTION 31

Which Cisco switch products are commonly deployed in roadside infrastructure solutions?
* Switch products should not be deployed because wireless access points are recommended
* IE3000 series switches
* IE2000 series switches
* IE5000 series switches

QUESTION 32

Which product provides reliable and resilient wireless solutions for mission-critical applications where signal strength can be challenging?
* Cisco’s industrial wireless 3700 series access points
* Cisco’s Ultra-Reliable Wireless Backhaul
* IC3000
* IW630O

QUESTION 33

Which mining persona is most responsible for worker safety environmental incidents and minimizing cost to mine?
* Director of Risk
* Director of Operations
* Head of Engineering
* Director of Networking

QUESTION 34

How do converged networks provide the most significant impact in a typical manufacturing factory”?
* reduced downtime
* plant safety
* machine safety
* better fleet operations

QUESTION 35

Which program enables partners to embed Cisco boards, software or hardware products into purpose-built equipment and solutions?
* loT Ignite
* Design-In
* DevNet
* Migration Incentive

QUESTION 36

Which Cisco full-stack solution automates the collection and integration of non-critical operational data and provides asset location in Oil and Gas applications’?

* Edge Intelligence
* Industrial Asset Vision
* IND
* FND

QUESTION 37

What is the ideal way to manage roadway infrastructure for cellular backhaul customers?
* DevNet
* Cisco DNA Center
* loT Operation Dashboard
* loT Operations Dashboard in combination with Cisco DNA Center

QUESTION 38

What are two ways CyberVision provides visibility and insights on industrial operations? (Choose two)
* provides management of conveyor operations
* monitors Automation Control Systems
* maps industrial zones and conduits
* conducts motion analytics in robotics operations
* detects changes in the control system

QUESTION 39

Which Oil and Gas segment focuses on the improvement of the digital retail customer experience?
* Downstream
* Substream
* Subprime
* Re-Stream

QUESTION 40

Which industrial network switches are ideal for monitoring equipment within mining operations?
* MerakiMS125-48
* Catalyst 9300
* IE1000
* Catalyst IE3400

QUESTION 41

In which two ways can roadway safety issues be addressed? (Choose two.)
* dynamic message sign automation
* vehicle weight assessment
* work zone protection
* workflow automation and enforcement
* vehicle counting and classification

QUESTION 42

What does Volt/Var Control and Optimization manage?

* Fault Location Isolation
* voltage levels and power quality
* compliance regulatory
* service restoration

QUESTION 43

What are critical problems in utility operations’?
* integration of renewable energy in the grid
* IT-OT convergence and automation
* workforce cost
* FLISRand VVO

QUESTION 44

What is a key digitization outcome in manufacturing?
* faster product lifecycle
* better products
* regulatory compliance
* better connected communities

QUESTION 45

Which is the main differentiator for Cisco in Oil and Gas?
* capability to send data in a multi-cloud environment leveraging field computing devices
* end-to-end solution based on solid secure infrastructure
* compatibility with a few automation standards
* product price effectiveness and compatibility with third-party solutions

QUESTION 46

Which Cisco Industrial Hardware is used for SPAN to support a brownfield Cyber Vision installation?
* ISA3000
* IC3000
* IR809
* ASA9000

QUESTION 47

Which products should an engineer leverage to implement a complete cybersecurity solution in secondary substations’?
* hardware (IR1101) and software (Cyber Vision)
* hardware (ISA3000) and software (FND)
* hardware (IW6300) and software (IND)
* hardware (ISA3000) and software (Cyber Vision)

QUESTION 48

What are the customer benefits of using Cisco Industrial Asset Vision?
* leverage Cisco sensors
* only to improve asset and facility monitoring

* ability to share data with other enterprise systems
* enhance efficiency and safety improve operational resiliency and protect investments
