SAP C_S4CMA_2202 Exam Description:

The "SAP Certified Application Associate - SAP S/4HANA Cloud (public) - Manufacturing Implementation" certification exam validates that the candidate possesses SAP Activate onboarding fundamentals and core knowledge in the Manufacturing line of business area required of the consultant profile. This certification proves that the candidate has an overall understanding and

in?depth technical skills to participate as a member of a RISE with SAP S/4HANA Cloud (public) implementation project team with a focus on Manufacturing in a mentored role. This certification exam is recommended as an entry level qualification.

Please note that this 2202 version of the exam takes part in the Stay Current with SAP Global Certification program. Once you pass this version of the exam, make sure that you start your stay current process. You will be required to take the Stay Current Assessment for all subsequent major releases via the SAP Learning Hub starting with the 2208 release to maintain your SAP S/4HANA Cloud (public) consultant certification status and badge. NOTE that Stay Current is moving to a bi-yearly cadence starting in 2022. In order to participate in the Stay Current program and access the Stay Current enablement and assessment, you will need at minimum an SAP Learning Hub, edition for SAP S/4HANA Cloud subscription. NO.37 In-app extensibility applications can be used to add custom fields, use custom forms, or use CDS views for analytics. For whom are these in-app extensibility applications designed?

- * For SAP Your Answer
- * For IT experts
- * For key users (business experts)
- * For consultants

NO.38 During the Change phase, when can a change project be created in the quality system?

- * Only after testing
- * Only when the data is archived
- * Only when the starter system has been deleted
- * Only after the previous change has been imported to the productive system

NO.39 How can you change the default testing values for a process step when using the test automation tool for SAP S/4HANA Cloud?

- * By using a self-service customizing (SSC) UI
- * By importing the values from another test plan
- * By adding a variant
- * By creating a new test plan

NO.40 Which of the following applications are embedded in SAP S/4HANA Cloud?

Note: There are 3 correct answers to this question.

- * SAP Learning Hub
- * Migration app
- * Configuration apps
- * Test app
- * SAP Best Practices Explorer

NO.41 Which of the following are project phases in SAP Activate?

Note: There are 3 correct answers to this question.

- * Run
- * Ideate
- * Discover
- * Prepare
- * Configure

NO.42 How are Order to Cash processes realized?

- * Based on SAP Best Practices
- * By importing the existing processes from traditional SAP ERP systems
- * By refactoring the code used in Procurement and Invoice Collaboration processes
- * Based on add-ons provided by customers from the retail industry

NO.43 In which phase of the project can a project manager create a billing proposal?

- * In the Execution phase
- * In the Fit to Standard Analysis phase
- * In the Contract Preparation phase
- * In the Planning phase

NO.44 What is a Learning Journey?

- * A how-to guide for process tutorials in the My Learning app
- * A guided tour embedded in SAP S/4HANA Cloud
- * A document that describes your experience during the onboarding process to SAP S/4HANA Cloud
- * A role-based collection of learning assets for a specific topic

NO.45 Why is it easy to create new workflows in SAP S/4HANA Cloud?

Note: There are 3 correct answers to this question.

- * Because you can use the intuitive SAP Fiori 2.0 design
- * Because there is no technical know-how needed to set up a new workflow
- * Because you can create alternative, simple workflows instead of large, error-prone workflows
- * Because you can use the intuitive ARIS Toolset
- * Because loops, branches, and thresholds for workflow steps are determined automatically without user interaction

NO.46 Which of the following are milestones of SAP S/4HANA deployment with SAP activate.

Note: There are 2 correct answers to this question

- * Scope items Assessment
- * Go-Live
- * Trial System Subscription
- * Starter System Deployment
- * Contract
