# Huawei H13-811_V3.0 Daily Practice Exam New 2022 Updated 452 Questions [Q12-Q26

Huawei H13-811_V3.0 Daily Practice Exam New 2022 Updated 452 Questions
Use Valid H13-811_V3.0 Exam - Actual Exam Question & Answer

Q12. The description of the VPN gateway is wrong?

* Through the VPN gateway, secure and reliable encrypted communication between the virtual private cloud and the corporate data center or other regional VPCs can be established.

* The VPN gateway needs to correspond to the user’s local gateway.

* A VPN gateway is an entry gateway device established in a virtual private cloud.

* Each VPN gateway can correspond to multiple VPN connections.

Q13. What are the following ways to access the flexible file service?

* Client mode

* Local way

* API way

* Management console mode

Q14. Which of the following components does not belong to the big data platform?

* Map Reduce

* Yarn

* Open Stack

* HDFS

Q15. Internet vendors host their software on the cloud, Users no longer need to buy software, Instead, get services by renting software on the cloud, Which cloud service model is described above?
* Saas
* DBass
* Paas
* Iaas

Q16. What are the application scenarios of real-time streaming computing service?
* real-time file transfer
* Log online analysis
* Network traffic monitoring
* Online graph calculation

Q17. After purchasing a VPN gateway, the VP. The N gateway allocates a public network exit IP address.
* True
* mistake

Q18. Which SDK language does the API gateway support?
* Java
* C
* H
* delphi

Q19. loT Internet of Vehicles solution, All used HUAWEI CLOUD El Which services?
* Map Reduce service MRS
* Data Access Service DIS
* Real-time streaming computing service Cloud Stream
* Graph Computing Service GES

Q20. What key performance indicators of the relational database service support monitoring database instances and database engines?
* Buffer pool utilization
* Number of database connections
* TPS
* QPS

Q21. Regarding the relationship between the cloud dedicated line and other services, which of the following is wrong?
* The user’s local data center can go to the cloud through a dedicated cloud line, or access the public network through a NAT gateway orIInternet provides services.
* Cloud private line can realize the interconnection between multiple VPCs through VPN
* The cloud dedicated line can realize the interconnection between multiple VPCs through the peer-to-peer connection of the VPC
* The cloud dedicated line can realize the interconnection between the local data center and the cross-regional VPC through the cloud connection.

Q22. uses IP Encryption and decryption verification during Sec VPN communication is performed on the firewalls at both ends.
* True
* False

Q23. The use of the cloud hard disk is the same as that of the transfer hard disk. The cloud hard disk mounted on the cloud server can be formatted and file system created to realize the persistent storage of data.
* True
* False

Q24. in the DDoS high defense network architecture, Which of the following modules is the function of detecting and cleaning user traffic?
* High imitation IP
* DDoS cleaning cluster
* User business
* DDoS high imitation

Q25. relational database services can meet the changing needs of the game industry, effectively shorten the research and development cycle, and reduce research and development costs.
* True
* mistake

Q26. HUAWEI CLOUD EIserving ,Model Arts, machine learning, and graph engines are AI platform services.
* True
* False
