# New 2023 Realistic 700-765 Dumps Test Engine Exam Questions in here [Q27-Q50

New 2023 Realistic 700-765 Dumps Test Engine Exam Questions in here
Updated Official licence for 700-765 Certified by 700-765 Dumps PDF

Cisco 700-765 exam is intended for system engineers who are involved in designing and implementing security solutions for their organizations. 700-765 exam tests their ability to identify security risks, develop security policies and procedures, and implement security solutions that meet the needs of their organizations. 700-765 exam also covers topics related to compliance and regulatory requirements, as well as the latest security technologies and trends.

**NEW QUESTION 27**

Which three features provided by NGFW and NGIPS support the Internet Edge&#8217; use case?

(Choose three.)
* Supports High Availability
* Support (or profiling devices

* Supports dynamic routing protocols such as OSPF or BGP
* Support for Platform exchange grid
* Support for High Bandwith environments
* Support for integrated posture assessment

**NEW QUESTION 28**

What are two solutions Cisco offers for email security? (Choose Two)
* AMP for Email Security
* Umbrella
* Meraki
* Tetration
* Cloudlock

**NEW QUESTION 29**

What are two common customer obstacles? (Choose Two)
* Limited resources
* High turnover of IT professionals
* Lack of solution integration
* Compliance regulations
* Security system blackouts

**NEW QUESTION 30**

What are three key benefits of Cisco NGFW? (Choose three.)
* Reduces throughput
* Prepares defenses
* Reduces complexity
* Identifies anomalous traffic
* Detects and remediates threats faster
* Increases traffic latency

**NEW QUESTION 31**

In the Campus NGFW use case, which capability is provided by NGFW & NGIPS?
* Flexible AAA Options
* Differentiated Mobile Access
* High throughput maintained while still protecting domains against threats
* Identity Service Engine

**NEW QUESTION 32**

What is an attribute of Cisco Talos?
* Detection of threats communicated within 48 hours of occurrence
* 3d party applications integrated through comprehensive APIs
* Real-time threat information
* Blocks threats in real time

**NEW QUESTION 33**

What are two keycapabilitiesof Meraki? (Choose Two)

* contextual awareness
* identity-based and device aware security
* deviceprofiling
* security automation
* application visibility and control

## NEW QUESTION 34

What are two corefunctionalitiesof DNS-layer security? (Choose Two)
* URL filtering
* Rea-time sandboxing
* Proxy and file inspection
* Live threat intelligence
* Data analytics and monitoring

## NEW QUESTION 35

What is a continuous protection feature of Advanced Malware Protection?
* Behavioral Indicators of Compromise
* Sandboxing File Analysis
* Global Threat Intelligence
* File Reputation

## NEW QUESTION 36

What are three main solutions areas for Advanced Threat? (Choose Three)
* Threat Defense
* Intrusion Analytics
* Threat Analytics
* Network Analytics
* NGFW
* Malware Protection

## NEW QUESTION 37

Which three options does Cisco provides customers in terms of &#8220;Visibility and Control&#8221; against today&#8217;s
threats? (Choose three)
* Granular device visibility and management
* Unparalleled network and endpoint visibility
* 18-month device release cycle
* Bandwith Utilization Monitoring
* Comprehensive policy enforcement
* Fast device policy updates

## NEW QUESTION 38

What is a key difference between Basic Data Loss Prevention and Advanced Data Loss Prevention?
* Providing content analysis

* Instant visibility
* Dynamic outbreak considerations
* Ability to filter in real-time

## NEW QUESTION 39

Which are three main features of the Meraki MX discussed in Cloud App Security module?

(Choose three)
* Cloud-Brokered VPN
* Posture Assessment
* Intrusion Prevention
* Email Security
* Profiling
* Next Generation Firewall

## NEW QUESTION 40

Which two IoT environment layers are protected by Stealthwatch? (Choose two.)
* Access Points
* Endpoints
* Internet/Cloud
* Control Layer
* Things

## NEW QUESTION 41

Which feature of StealthWatch aggregates and normalizes NetFlow data?
* Netflow analytics
* Forensic investigation
* Advanced malware protection
* FlowCollector
Explanation

## NEW QUESTION 42

Which tow features are part of Cisco email security? (Choose two)
* application visibility and control
* impact assessment
* user identity tracking
* encryption
* Layer 4 traffic monitoring
* outbreak filters

## NEW QUESTION 43

Which Tetration feature enforces consistent allow list policy access on premises data centers and pubic clouds to enable zero trust using application segmentation?
* application access control
* trusted access segmentation

* automatic block listing
* Enable a zero-trust model

**NEW QUESTION 44**

Which two attack vectors are protected by Web Security? (Choose two.)
* Data Center
* Email
* Voicemail
* Cloud
* Web

**NEW QUESTION 45**

What are the competing IT and Operation Technology (OT) priorities that make securing loT difficult?
* Security vSS. availability
* Malfunctions vs. output
* Innovation vs. manufacturing
* Hackers vs. safety

**NEW QUESTION 46**

What do customers receive when implementing TrustSec?
* SL decryption enabling secure communications on and off company networks
* Context-aware access enhancing the forensic capabilities available to their IT team
* Device profiling and onboarding, enabling businesses to control company role policies across all network services 1
* Dynamic role-based access control that enables them to enforce business role policies across all network services

**NEW QUESTION 47**

Which are two main features of DDoS Attack Prevention? (Choose two)
* Block or allow traffic automatically
* Redirects DDoS traffic back to attacker
* Leveraging AMP ThreatGrid technology
* Stop attacks within seconds of detection

**NEW QUESTION 48**

What are two key capabilities of Meraki? (Choose two.)
* application visibility and control
* security automation
* contextual awareness
* device profiling
* identity-based and device-aware security

**NEW QUESTION 49**

In which two ways should companies modernize their security philosophies? (Choose two.)

* Expand their IT departments
* Decrease internal access and reporting
* Complement threat-centric tactics with trust-centric methods
* Reinforce their threat-centric security tactics
* Rebuild their security portfolios with new solutions

**NEW QUESTION 50**

What are three security blind spots that must be addressed? (Choose three.)
* IT
* Workloads
* Applications
* Networks
* Email
* Data
