QUESTION 23

In Avaya IX? Messaging High Availability, VSN is designed to support up to how many SIP ports?

- * 100
- * 120
- * 150
- * 220

QUESTION 24

When using distributed VSN configuration, how many advanced users can an entire Avaya IX? Messaging solution support?

- * 4,800 advanced users
- * 20,000 advanced users
- * 60,000 advanced users
- * 80,000 advanced users

QUESTION 25

Refer to the Exhibit.

The screenshot shows the 'ixm-c2439 - MobiLink Profiler' application window. It features a menu bar (File, View, Tools, Help) and a toolbar. Below the toolbar is a table with the following data:

number	remote_id	user	version	start_time	duration	sync_request	receive_upl	get_db_wor	connect	aut
1664	be1aa8f8-0a12-3bc4	mi_remote_master	Regular	2019-11-01	0.297	0.032	0	0	0	0
1665	ab1bb2f8-3a21-4ce5	mi_remote_slave_2	Regular	2019-11-01	0.281	0.031	0	0	0	0

Below the table is a timeline view showing two red vertical bars representing events. The x-axis is labeled with timestamps: 16:45:26, 16:45:28, 16:45:30, 16:45:32, 16:45:34, and 16:45:36. A large watermark 'premium.validexam.com' is overlaid diagonally across the entire screenshot.

The exhibit shows the healthy server with data synch working between the Consolidated server and the voice server node.

What does Remote_id stand for?

- * The unique ID for each voice server node which is successfully synchronizing data from Primary server
- * The unique ID for each voice server node which is added in a High Availability solution
- * The unique ID for Consolidated server which is successfully synchronizing data from voice server
- * The unique ID for each voice server node which is successfully synchronizing data from Consolidated server

QUESTION 26

Which three statements about the recommended hardware requirements of Avaya IX

- * Configure the CPU for Performance mode in the server's BIOS settings.
- * All processors are to be Intel@ 2.0 GHz or better.
- * Different configurations must be used for both physical and virtual servers.
- * All processors are to be Intel@ 3.5 GHz or better.
- * All hard drives must be high performance, server grade drives.

QUESTION 27

- * On the Voice server nodes
- * On the Consolidated server
- * On the Database server

QUESTION 28

In Avaya IX? Messaging, what are the default Voicemail and Application User passwords?

- * default Voicemail password: 02468; default Application User password: password;.
- * default Voicemail password: 12345; default Application User password: admin;.
- * default Voicemail password: 13579; default Application User password: password;.
- * default Voicemail password: 11111; default Application User password: password1.

QUESTION 29

A customer has Avaya IX? Messaging installed and wants to modify the ETSIPService.ini file to enable TLS security. In which folder is the ETSIPService.ini file located on the voice server hard drive?

- * UC/UCCSE
- * UC/DB
- * UC/Configuration
- * UC/ETSIPService

QUESTION 30

Which three statements about license management in Avaya IX? Messaging High Availability are true?

(Choose three.)

- * The other servers (Secondary Server, Consolidated server, Mobilink Server, etc.) will maintain their individual license, which allows them to maintain full functionality.
- * The Primary voice server will hold the license, and becomes the primary holder of the license.
- * The license file will be copied to all voice servers by Mobilink.
- * The license files on other servers (Secondary Server, Consolidated server, Mobilink Server etc) are time stamped, and expire after a certain period of time.
- * The license files on other servers (Secondary Server, Consolidated server, Mobilink Server etc) are permanent, and do not expire.

QUESTION 31

Which three Operating Systems are Messaging 10.8 SP1 installation? (Choose three.)

- * 2008 Standard Edition
- * Windows Server 2012R2
- * MAC operating systems
- * Windows Server 2016
- * Windows Server 2019

QUESTION 32

In the event of one or more VSN failures in a High Availability architecture, which component provides continuous voice messaging and message retrieval to all registered users?

- * Voice Server Node
- * Content Sync Engine
- * Carbonite server
- * Consolidated Server

QUESTION 33

Content Synchronization Engine is the server that will perform the IMAP sync with Gmail, Office 365, and MS Exchange. For larger deployments, it is mandatory to add remote content sync engine(s).

What is the limit specified for adding a remote content sync engine?

- * One server for every 20,000 Advanced users
- * One server for every 10,000 Advanced users
- * One server for every 5,000 Advanced users
- * One server for every 2,000 Advanced users

QUESTION 34

Avaya IX? Messaging stores the log files in which location?

- * IX-Messaging Install drive > UC > IX > Logs
- * IX-Messaging Install drive > UC > Logs
- * IX-Messaging Install drive > UC > OL > Logs
- * IX-Messaging Install drive > UC > Admin > Logs

QUESTION 35
